

## O.W.L (Options While Learning) Vocabulary

In addition to preparing your definitions, complete word work activities from any column to equal a total of 50 points. Activities require a heading in your journal. Any points not completed will be subtracted from your spelling grade. You may NOT do the same activity over and over within the same week, but you may repeat activities as needed throughout the year. Please choose activities that will best help you learn your vocabulary words each week.
